NO CORE

BUILT FOR
BC TERRAIN

ASSEMBLED
IN CANADA

FMVSS 121 RATED
FOR 23,000 LBS

HD3000 is a high performance brake lining that provides superior stopping power and exceptional lining life under all conditions. Used by large fleets looking for cost per mile savings and safe reliable stops. This material is well suited for all HD applications in BC.

- Our best private label friction ever
- Lower costs per mile when compared to other premium linings
- Excellent fade & recovery performance
- Excellent stopping power
- Excellent lining life & drum compatibility
- Asbestos-free brake lining
- Fibreglass based friction materials run quieter, wear better, and vibrate less
