

Micro-V® Belts

- Special belt construction eliminates belt noise, reduces tension loss, and solves problem drive applications
- Utilizes advanced materials like Aramid Fiber found in bullet-proof vests and crack and heat-resistant EPDM materials
- Designed for small diameter pulleys, backside idlers, and for use with (or without) automatic tensioners
- Meets or exceeds SAE J1459, SAE J2432, and SAE J1596 specifications

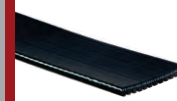

Effective Length: 63.78"
Top Width: 0.807"
Ribs: 6

FleetRunner™ Belt Tensioners

- Double row bearings carry more load and last up to three times longer than two separate bearings
- Labyrinth seal technology prevents contamination of internal parts improving durability and increasing service life
- Machined steel pulley reduces surface wear while shielding the internal bearing from external contaminants and damage
- Damping mechanism provides maximum stability and reduces vibration

Heavy Duty Water Pumps

- Covered by the best heavy-duty warranty in the industry; 18 months or 150,000 miles / 5,400 hours (whichever comes first)
- 100% fully tested unitized bearings and seals
- Pumps are computer-tooled and fitted with a precisely balanced impeller to ensure OE fit and function
- Manufactured to ISO/TS 16949 standards
