

Aluminum Wheels

Fortis Aluminum Wheels are forged from heavy strength aluminum and add value to your truck or trailer.

Aluminum wheels have been proven to increase overall fuel economy and load capacity, while lowering overall maintenance costs.

Fortis aluminum wheels come with a 5 year, no hassle warranty on wheel structure.

- Lighter weight wheels increase fuel economy and load capacity
- Cooler running wheels increase both tire and brake life
- Reduced maintenance costs compared to steel wheels
- **5 Year Warranty**
